INSTRUCTIONS

 Envers du tissu  Endroit du tissu

Préparation :

Avant de couper le tissu, il faut le traiter à la vapeur ou le laver. Ainsi, il rétrécit avant la coupe. Répartir le patron sur le tissu en respectant le plan de coupe. Couper en suivant exactement la ligne du patron qui inclut une marge de couture de 1 cm. Les ourlets sont également inclus. Ne pas oublier de cranter pour reporter les repères du patron sur le tissu. Pour obtenir un résultat parfait, après chaque couture, couper les fils, repasser et passer les coutures au point overlock ou zigzag de la machine.

1.

Placer les devants et le dos du chemisier endroit contre endroit. Appliquer les épaules, épingler et coudre.

2.

Appliquer la triplure sur l'envers des parementures. Puis assembler les parementures placées endroit contre endroit entre elles au niveau des épaules. Appliquer les parementures sur l'encolure, épingler et coudre.

3.

Côté patte de boutonnage, faire coïncider le bord de la parementure et le haut de la patte, endroit contre endroit, et coudre.

4.

Puis retourner la parementure sur l'envers du vêtement.

5.

Retourner l'autre parementure sur l'envers et superposer un devant sur l'autre pour fermer la patte de boutonnage (endroit contre endroit). Épingler et coudre.

6.

Réaliser une surpiqûre sur l'endroit du chemisier pour maintenir la patte et les parementures.

7.

Monter la manche endroit contre endroit en veillant à faire coïncider les repères du patron. Épingler et coudre.

8.

Assembler les côtés des manches et du corps.

9.

Pour terminer, former et coudre l'ourlet du bas du chemisier et des manches.
